

## HOST (Hinged Over Subsea Template)

### PRODUCT DESCRIPTION:

Among the main technical features of the HOST system is the drilling template, which is configured with up to six wing elements that hinge up to allow the component to be passed through a moonpool with dimensions of at least 18.6 ft by 20.3 ft. The wing elements are later hinged down to form the template and can serve as well slots, flowline tie-in porches, or other modular interface units.

### PRODUCT CHARACTERISTICS:

Typical parameters :

- Dimensions (w x l x h) : 8m x 14m x 4m
- Weight (tonn) : 50 -80 t
- Materials Carbon Steel
