

## Well Jumpers

### PRODUCT DESCRIPTION:

Satellite wells positioned some distance from the central manifold may be Tied-in by use of rigid or flexible Jumper Spools. Jumper spools may also connect other subsea structures such as PLEM/PLETS and Riser Bases. The Jumper Spools have a vertical or a horizontal Collet connector at each end. Installation of these Spools is done by a simple crane operation assisted by ROV and guide wires when required.

### PRODUCT CHARACTERISTICS:

Sizes from 4" to 18" diameter

Lengths exceeding 50 m

Normally made from X65 CS piping og Duplex/Superduplex piping

Monobore or multibore design
